SUPERIOR AFTER CARE FOR BOND MAINTENANCE

Amiplex after care is essential for maintaining the strength and condition of the hair.

RPR has two hair care ranges which compliments Amiplex and all hair types.
AMIPLEX ENRICH and AMIPLEX ENRICH BLONDE TONING ranges

AMIPLEX ENRICH SHAMPOO & CONDITIONER

Repairs, strengthens and hydrates promoting healthy hair structure, manageability and shine. Ideal for coloured, dry, damaged or frizz hair.

AMIPLEX ENRICH TREATMENT

To enrich hair strength with nourishing amino acids, essential vitamins, minerals and moisture. It's a health cocktail for your hair.

With: Jojoba, Aloe and Almond Oil

AMIPLEX ENRICH BLONDE TONING shampoo, conditioner and treatment have the added properties of toning brassiness for brighter blondes.

AMIPLEX has been tested with Mycolour advanced restructuring cream and Mycolour bleach products ensuring results at the highest level. Mycolour is designed to produce long lasting vibrant colour and offers a versatile range catering to colour trends.

SALON MANUAL

INTENSE BOND REPAIRING TREATMENT

AMIPLEX allows colourists to reach new heights when colouring and caring for hair. It is an intensive bond building treatment that intermixes with all colour and bleach products to give amazing protection and reconnect bonds when they are damaged.

When bonds are broken the hair is damaged. AMIPLEX restructures the bonds internally creating healthier, stronger hair and allowing brighter blondes, vibrant reds and luxurious brunettes. Hair is stronger, smoother and has shine.

Hair is protected by a soluble film which penetrates deep into the cortex during the chemical process. Bonds are re-built and new ones replace broken and damaged ones. A blend of powerful restorative complexes, PRO-VITAMIN B5, VITAMIN C and ALOE VERA further repair, strengthening and moisturize hair.

THE AMIPLEX TRIO

CONNECT 1

Intermixes with all colour and bleach products in order to protect the hair during the chemical process by reconnecting the bonds and internal structure of the hair.

FORTIFY 2

TREATMENT TO BE USED AFTER AMIPLEX Connect 1
To restore bonds and fortify the hair with nourishing amino acids, essential vitamins minerals and moisture.

ENRICH 3

TAKE HOME TREATMENT to enrich and strengthen hair with nourishing amino acids essential vitamins, minerals and moisture. For clients to use at home up to twice a week.

Mycolour AMIPLEX is free from:
Parabens, Silicone, Allergens, Sulphates, DEA, Aldehydes

AMIPLEX Fortify 2 and Enrich 3 are also available in a blonde toning formula to remove unwanted brassiness and yellow tones.

Directions

AMIPLEX ENRICH

BLEACHING POWDER & CREAM

- Mix the desired amount of bleaching product and peroxide.
- Add 8 ml of AMIPLEX Connect 1 to 30g of bleaching powder (2.5 ml per every 10g of bleach).
- Add 4mL of Amiplex Connect 1 when mixing less than 30g of bleaching powder or when mixed with colour cream (1.5mL per every 10g of colour).
- Apply the mix to the hair and process as normal.
- Rinse thoroughly and towel dry hair.
- Apply AMIPLEX FORTIFY 2.

NB. *Do not exceed 40 Vol on scalp. It is not recommended to bleach extremely damaged hair.*

AMIPLEX FORTIFY 2

After Bleaching without Toner

- If no toner is to be performed after the bleaching process do not shampoo the hair. Towel dry well and apply 15ml of AMIPLEX Fortify 2 from roots to ends.
- Process AMIPLEX Fortify 2 for 10 minutes, rinse and shampoo then apply final conditioner.

After Bleaching with Toner

- Rinse bleach and lightly shampoo & towel dry.
- Mix, apply and process toner (1.5 ml of AMIPLEX Connect 1 can be added to every 10g of colour).
- Rinse toner thoroughly and do not shampoo the hair. Towel dry well and apply 15ml of AMIPLEX Fortify 2 from roots to ends.
- Process AMIPLEX Fortify 2 for 10 minutes & Rinse. Shampoo then apply final conditioner.

Always consult prior to any chemical service.

COLOUR, DEMI & ULTRA LIFT

- Prepare colour to manufacture's instructions.
- Add 4 ml of AMIPLEX Connect 1 when mixing less than 30g of colour cream (1.5 ml per every 10g of colour).
- Apply the mix to the hair and process as normal.
- Rinse thoroughly and towel dry the hair.
- Apply AMIPLEX Fortify 2.
- Process for 10 minutes and rinse. Shampoo then apply final conditioner.

MY AMIPLEX TREATMENT

Can be used after Perms & Chemical Straightening.

- Shampoo with clarifying shampoo.
- Mix 10ml AMIPLEX Connect 1 with 15ml AMIPLEX Fortify 2.
- Apply evenly to hair and wrap in towel for 10 minutes.
- Rinse well, towel dry and apply 10ml AMIPLEX Fortify 2 for 3 to 5 minutes depending on length of hair.
- Rinse well and style as desired.

AMIPLEX ENRICH 3 HOME CARE

For clients to use at home up to twice a week.

- Shampoo, rinse and remove excess water from hair.
- Apply Amiplex Enrich 3 roots to ends.
- Leave on 5 to 10 minutes depending on length of hair.
- Rinse thoroughly and style.
- Recommend AMIPLEX Enrich series for optimum hair health.

NB. *The use of measuring scales for accurate measurement is highly recommended.*

Directions
